

15. A golf glove that can be saved to extend the normal usage life comprising:
a commercially available golf glove and
golf glove saving pads.
16. The golf glove of claim 15 wherein the golf glove saving pads are removable.
17. The golf glove of claim 15 wherein the golf glove saving pads are replaceable.
18. The golf glove of claim 15 wherein the golf glove has saving pad at the palm area.
19. The golf glove of claim 15 wherein the golf glove has saving pad at the finger area.
20. The golf glove of claim 18 wherein the golf glove saving pad has an irregular pear shape.
21. The golf glove of claim 19 wherein the golf glove saving pad has an elongated oval shape.

Abstract

Golf glove saving pads can be used and attached to a golf glove to serve as a glove saver. The saving pads comprise at least one layer of non-slip material that has a double sided glue tape, or a layer of releasable glue in stead, at the bottom so that the golf glove saving pads can be attached onto a golf glove and secured during golf swings. The whole golf glove saving pads can be easily removed by using the hot air to soften the glue bonding to a golf glove, therefore they are replaceable. Moreover, the golf glove saving pads also serve as a moisture barrier to eliminate the effect due to the moisture from the perspiration of the hands that causes the golf glove to become weaker to sustain the stress during golf swings, therefore, the golf glove saving pad can extend the normal usage life of a golf glove.
